

**QUESTION 1: What are the key environmental justice issues in the communities in which you live and/or work?** Are there additional issues you're aware of in the county as a whole? What are ways that the County can be most helpful or effective in responding to those issues?

---

**QUESTION 2: What are the most pressing health concerns in the communities in which you live and/or work?** Are there additional issues you're aware of in the county as a whole? What are ways that the County can be most helpful or effective in responding to those issues?

---

**QUESTION 3: What is your greatest concern about how climate change may impact the communities in which you live and/or work, and/or the county as a whole?** What are ways that the County can be most helpful or effective in responding to those issues?

---

**QUESTION 4:** Review the draft map of disadvantaged communities on the next page. **Does this map accurately capture the disadvantaged communities in Contra Costa County?** If not, what areas should be added/removed and why?

---

**QUESTION 5:** Are there examples of how other cities or counties have approached environmental justice, community health, and/or sustainability that you think the County should consider?

---
