

VINE HILL AND MOUNTAIN VIEW - CONTEXT - 1

Vine Hill and Mountain View are small unincorporated communities located on the northern border of Martinez. The communities primarily consist of single-family homes with a few commercial uses. Interstate 680 runs through Vine Hill and Highway 4 runs just south of the two communities, providing regional access to other parts of the Bay Area. These two communities are situated adjacent to the Martinez Refinery Company and other industrial uses. The Burlington Northern Santa Fe Railroad runs east-west through Vine Hill, transporting cargo to and from Bay Area ports. Many residents travel to Martinez or beyond for education, work, services, and other amenities.

Residents appreciate the relatively affordable cost of housing in their communities, as well as its access to nature and the Contra Costa Canal Trail. Residents are also proud of their independent, self-sufficient nature, and recognize that the communities are distinct from Martinez and Concord. Community members have noted that the friendly, neighborly feeling cultivated in these communities would be enhanced with improved public safety and beautification, and that sidewalks, trail connections, and public transit could be expanded. Residents also cite parking as a prevalent issue in their neighborhoods and would like to increase parking availability near their homes.

VINE HILL AND MOUNTAIN VIEW - CONTEXT - 2

The information on this page presents a summary of hazards and vulnerabilities in Vine Hill and Mountain View based on the Contra Costa County Vulnerability Assessment; please see the [online Vulnerability Assessment](#) for a full description of these hazards and vulnerabilities.

HAZARDS	
Air quality	Landslides
Coastal flooding	Sea level rise
Drought	Seismic hazards
Extreme heat	Severe weather
Flooding	Wildfire
Human health hazards	

MAJOR VULNERABILITIES
Cost-burdened households and low-income households are vulnerable to coastal flooding, drought, flooding, landslides, seismic hazards, severe weather, and wildfire.
Persons experiencing homelessness, persons with chronic illnesses, and children are vulnerable to poor air quality, extreme heat, human health hazards, and wildfire.
Interstate 680, Highway 4, and their bridges are vulnerable to damage from coastal flooding, flooding, landslides, sea level rise, seismic hazards, and severe storms.
The Martinez Refinery, wastewater treatment plant, and Waterbird Regional Preserve are vulnerable to inundation from sea level rise, coastal flooding, and flooding.
Wetlands and aquatic habitats are vulnerable to damage from coastal storms, drought, sea level rise, and severe weather.

IMPACTED COMMUNITY

The County has identified Vine Hill and Mountain View as Impacted Communities under Senate Bill (SB) 1000, which requires the County to integrate environmental justice into the General Plan. This law is based on the understanding that some communities have experienced a combination of historic discrimination, negligence, and political and economic disempowerment. Often, this has resulted in a disproportionate burden of pollution and health impacts and disproportionate social and economic disadvantages in these communities.

The 21 indicators that contribute to Vine Hill and Mountain View’s identification as Impacted Communities are highlighted in the chart to the right, with additional details provided in the maps that follow, based on State data from **CalEnviroScreen**. The chart shows how Vine Hill and Mountain View rank for each indicator compared to the rest of the state. The County identifies Impacted Communities as those where the combined ranking for all factors is 72 percent or higher. While there are multiple Census tracts that make up Vine Hill and Mountain View, this chart presents only the most-impacted Census tract among these communities.

Given the communities’ close proximity to refineries and other heavy industrial and manufacturing operations, residents may be at higher risk of exposure to harmful substances in the air, water, and land. Hazardous waste disposal facilities and domestic landfills, officially termed the Vine Hill Complex, are also located just east of the residential community. These sites have undergone clean up but are subject to ongoing maintenance to prevent releases of hazardous substances.

There have been violations of air quality standards in recent years, including a release of nearly 20 tons of gases during a power outage in 2016. High levels of air pollution can induce asthma, especially in vulnerable populations such as children and seniors. State data indicates that Vine Hill and Mountain View residents visit the emergency room for asthma conditions at a rate that is 67 percent higher than other communities in California.

IMPACTED COMMUNITY INDICATORS (2021)

Ranking of Most Impacted Census Tract in Vine Hill and Mountain View Relative to the State

TOXIC RELEASES

Census Tract Ranking

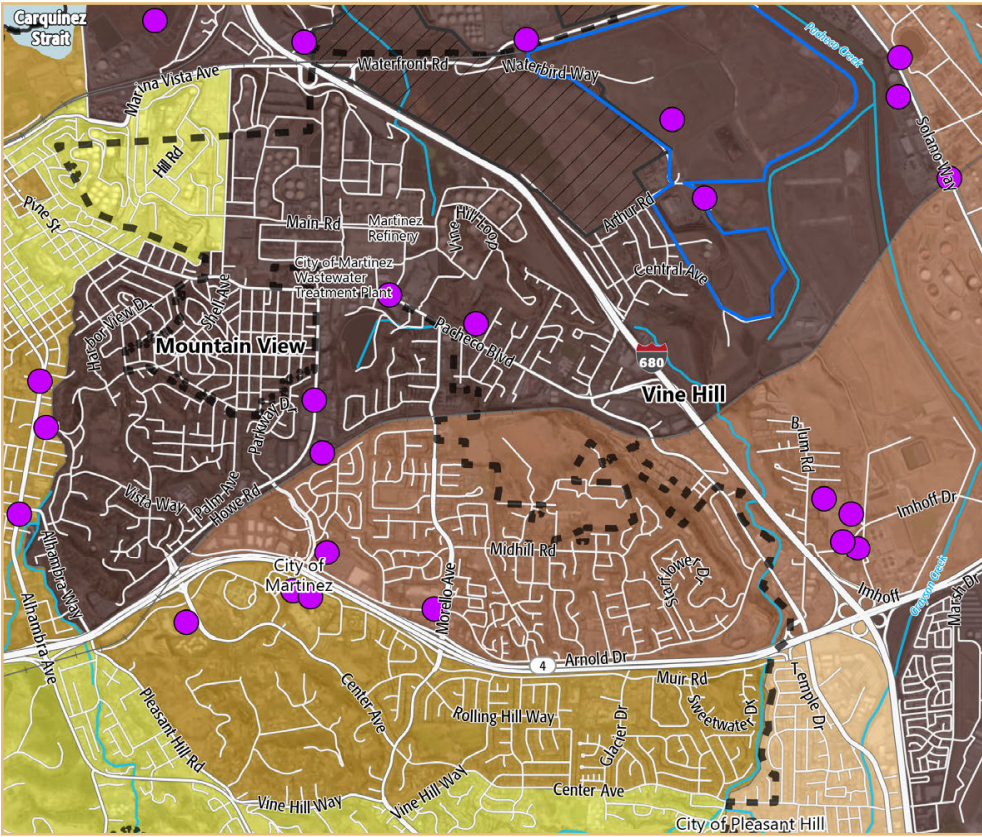

- >90 to 100%
- >80 to 90%
- >70 to 80%
- >60 to 70%
- >50 to 60%
- 0 to 50%
- Incorporated City
- Urban Limit Line
- Outside Urban Limit Line
- Railroads
- Creeks and Drainages

This map ranks Census tracts based on the concentration of toxic chemical releases from industrial facilities. Parts of Vine Hill and Mountain View are ranked at 90 percent, meaning that the area has a concentration of toxic releases that is worse than 90 percent of the state.

● Toxic Release Facilities

HAZARDOUS WASTE

Census Tract Ranking

- >90 to 100%
- >80 to 90%
- >70 to 80%
- >60 to 70%
- >50 to 60%
- 0 to 50%
- Incorporated City
- Urban Limit Line
- Outside Urban Limit Line
- Railroads
- Creeks and Drainages

This map ranks Census tracts based on the density of hazardous waste facilities and generators (e.g., the Martinez Refinery Company), considering each facility's type and permit status and generator activities. Parts of Vine Hill and Mountain View are ranked at 96 percent, meaning that the area has a density of hazardous waste facilities and generators that is higher than 96 percent of the state.

SOLID WASTE

- Incorporated City
- Urban Limit Line
- /// Outside Urban Limit Line
- Railroads
- Creeks and Drainages

Census Tract Ranking

- >90 to 100%
- >80 to 90%
- >70 to 80%
- >60 to 70%
- >50 to 60%
- >0 to 50%

This map ranks Census tracts based on the proximity to solid waste sites and facilities, considering each facility's type, proximity to nearby communities, reported odor complaints, and more. Parts of Vine Hill and Mountain View are ranked at 97 percent, meaning that the area is exposed to more solid waste hazards than 97 percent of the state.

PLANNED LAND USE

Land use designations for Vine Hill and Mountain View are shown on Figure LU-1, General Plan Land Use Map, and are defined in the Land Use Element. Most of the community is planned for continued residential, industrial, and open space uses. No major developments or changes are planned, except in the mixed-use corridor along Pacheco Boulevard. This area is planned for development that would provide a wide array of uses for residents while stimulating reinvestment in the community at large. Community-serving businesses that are walkable and conveniently accessed by alternative transportation modes are highly desired.

Single-family home in Vine Hill.

Multi-family residential in Vine Hill.

Commercial use in Vine Hill.

Office/industrial use in Vine Hill.

GUIDING PRINCIPLES

The following guiding principles articulate the values, priorities, and aspirations for the future shared by Mountain View and Vine Hill community members:

1. Mountain View and Vine Hill's rich history and heritage should be celebrated.
2. The independent culture that separates Mountain View and Vine Hill from surrounding cities should be preserved and the friendly, neighborly atmosphere should be maintained.
3. Mountain View and Vine Hill residents identify the surrounding wetlands, open spaces, and connections to nature as some of the most valuable assets of this area. Preservation, natural resource restoration efforts, and support for local wildlife should be expanded.
4. Roadways should be safe for all users, including pedestrians, bicyclists, and drivers. Sidewalks and bike lanes should be added.
5. The affordability and variety of the existing housing stock should be maintained and enhanced.
6. Residents should be protected from adverse health impacts associated with traffic congestion along Highway 4 and Interstate 680.
7. Mountain View and Vine Hill residents should live in a healthy environment safe from short- and long-term air quality and health hazards associated with industrial facilities in and near the community.

POLICIES

1. Prioritize the preservation and restoration of wetlands, wildlife habitat, open spaces, and connections to nature.
2. Prioritize roadway improvements to reduce traffic congestion on Pacheco Boulevard. Incorporate pedestrian, bicycle, and stormwater infrastructure improvements when feasible to improve safety and facilitate mobility throughout the communities.
3. Improve public transit options and accessibility and promote alternative transportation modes.
4. Proactively enforce County codes to support community beautification and safety. Encourage improved community appearance through graffiti removal, litter reduction, street and sidewalk maintenance, abatement of illegal dumping, and code enforcement.
5. Encourage economic investment along major thoroughfares, including commercial and mixed-use development.
6. Incorporate safe, well-maintained open spaces and gathering places in new commercial and mixed-use development projects. In addition, multiple-family residential development should contribute toward the development of parks and recreational facilities that serve the community at large.

ACTIONS

1. Install traffic calming to reduce speeding and increase safety for cyclists on Pacheco Boulevard.
2. Undertake drainage improvements to reduce local flooding problems. To the extent feasible, incorporate "green streets" principles in the design of such projects.
3. Install sidewalks and improve pedestrian connections and infrastructure.
4. Study the feasibility of creating secondary roadway access to and from Vine Hill.
5. Provide more frequent curbside waste services, including recycling and organics collection.
